* Managed Access Towers capture constitutionally protected call detail records, cellular phone information, CDNs, IMEIs, etc. from mobile devices, and require subpoenas and prior written warrants from a magistrate judge for each mobile device before retrieving and capturing any of this Constitutionally Protected data, which cannot be approved or authorized by the FCC or any Carrier. In addition, Managed Access Towers also require, but not limited to, FCC pre-approvals, plus separate approvals and consents from each and every Cellular Carrier, as well as, each of their respective authorized 3rd Party Cellular Carrier resellers. Elimination, Jamming, and Blocking, such as, the MobileWall™ Elimination only requires FCC pre-approval BEFORE ANY USE and no Cellular Carrier consents. Copyright © 2015 TalkTelo, LLC.
